

SwiftSend – Mobile/Web Development Services

Build What They'll Remember.

About SwiftSend

SwiftSend is a solo-run, high-impact development service built for brands that want to stand out online. Whether you're a startup, creator, small business, or solo brand, I help you bring your ideas to life with custom-coded websites and apps — fast, responsive, and built to convert.

Services Offered Through Mobile/Web Development

- Custom-coded websites (HTML/CSS/JS/React)
- Mobile-ready designs + animations
- App development (iOS & Android)
- Landing pages, forms, portfolios, booking tools
- SEO & performance-focused structure
- Personalized consultation + support

Why Create a Mobile Application/Website?

- Own your platform — no templates, no limits
- Build credibility fast
- Designed to convert and look
- Optimized for mobile + desktop

Built by a Developer

You'll work directly with me — Edgar — a developer trained in computer science and data science, with hands-on experience from real-world projects and custom client work. I come from a development-driven family, with three brothers in software engineering, and I've collaborated with them on various professional builds.
